

# Stockholm Enerchain Workshop, June 12

## The Enerchain business case

Enerchain is a Blockchain based distributed ledger that has the potential to become the operating system of Energy Trading covering the entire trade cycle from end to end. The Enerchain distributed marketplace can already give:

- Reduced market access cost without transaction fees.
- Lower entrance barriers for smaller players and new products.
- The opportunity to trade self-defined, non-standard products.

## History and Status of Enerchain

- Project started in May 2017 with 23 participants, participation increased to over 40 so far.
- Tradable products: power/gas, spot/forward, any European delivery zone.
- Several tests performed with up to 38 concurrent participants, load tests performed in March 2018.
- The Enerchain consortium is working on forming a legal entity ("Enerchain foundation") for project governance. Membership Agreements are worked out for participants.
- PONTON extends the Enerchain infrastructure by technical and business functions.

## It is time to join

- Build up in-depth knowledge about blockchain technology for trading.
- Learn how to connect your algo trading and ETRM systems to Enerchain.
- Use Enerchain for live trading with an increasing number of market participants.
- Explore further opportunities to use blockchain for post-deal processes such as OTC clearing, regulatory reporting, collateral management, etc.

## Agenda

Venue: Hilton Söder, Guldgränd 8, Box 15270, 104 65 Stockholm, June 12, Time: 13:00 – 17:00

- 13:00 Introduction
  - 13:15 Overview on blockchain technology and how it is used for B2B integration
  - 13:45 "Blockchain in Energy" – wholesale, flexibility trading, trading in the microgrid, current projects in the sector
  - 14:45 Break
  - 15:15 Enerchain, insights, current status, future steps, how to join
  - 16:00 Open discussion, next steps
  - 16:50 Wrap-up
  - 17:00 End of workshop
- Thereafter: let's have a beer at the bar!

## How to register

Please register at [events@ponton.de](mailto:events@ponton.de). Participation is free of charge for participants in the Nordic energy markets.

## Contacts for further information

Ponton have assigned the below listed representatives as key contacts. They will act as coordinators and be available as project leaders, and support to the industry by appointment. They look forward to receiving your interest of participation

**Michael Merz:** +49 170 85 22894 – [merz@ponton.de](mailto:merz@ponton.de)

**Petter Marthinsen:** +47 90 82 11 18 – [petter@construo.eu](mailto:petter@construo.eu)

**Stefan Fastesson:** +46 70 369 03 15 – [stefan.fastesson@commodity.se](mailto:stefan.fastesson@commodity.se)
