full distribution 3.11.3 with JRE 15.0.2 (Linux):

<https://www.ponton.de/downloads/xp/3.11/PontonXP-Listener-3.11.3-Linux.zip>

4. Migration

4.1. Updating a Messenger version 3.7.0 - 3.11.2

extract the patch zip file matching your operating system to the /update/ folder of the Messenger 3.x.x installation.

A restart of the application will apply the patch to the installation.

Existing addon- and config-patches will remain unchanged and will continue to work, so no additional action is required.

4.2. Updating a Messenger version before 3.7.0

Unfortunately there is no patch for older Messenger version.

The main reason for this is, that the patch mechanism has been reworked and therefore the patch files are not compatible.

However the configuration of old Messenger version is compatible and can be reused in the current version

A detailed guide for upgrading can be found here:

<https://www.ponton.de/downloads/xp/3.11/documents/MigrationGuide311.pdf>

Important

If a Listener is used with the Messenger, then the Listener has to be updated as well, so that both versions are the same.

4.3. Updating a Listener version 3.2.x - 3.11.2

1. stop the Listener
2. create a backup copy of the current Listener folder
3. delete everything from the current Listener folder
4. extract the Listener distribution zip to the Listener folder
5. copy the config folder of the backup into the Listener folder (overwriting the default files)

6. start the Listener
